PROJECTS

Kerala PSC Live 🔗
Developed a **dynamic** and **SEO-optimized web** platform that delivers real-time updates on Kerala PSC job notifications, exams, and alerts. The project is fully responsive and designed for performance, accessibility, and scalability..

- Built with **Next.js** (App Router) for server-side rendering (SSR) and enhanced SEO.
- Implemented **user authentication** with **Auth.js**, ensuring secure access and user session management.
- Designed reusable, modern components using **Shadcn UI** and **Tailwind CSS**, maintaining a consistent and clean UI/UX.
- Integrated **MongoDB** for dynamic job data storage and retrieval.
- Used **Zod** for schema validation to maintain data integrity across API requests and forms
.
- Structured with **TypeScript** for better type safety and development experience.

Real Estate Website 🔗
Next.js, Tailwind CSS, ShadCN UI Developed a fully responsive real estate website with Next.js, utilizing **Client-Side Rendering (CSR)** to efficiently load content and enhance user experience. Implemented modern design components with Tailwind CSS and ShadCN UI to create a smooth and intuitive user interface.

- **CSR Implementation**: Ensured efficient loading of content by using Client-Side Rendering, enhancing interactivity.
- **Multi-Page Design**: Built and deployed five essential pages (Home, About, Properties, Blog, Contact) using React components in Next.js.
- **Figma Design** : Modern Figma Design own Creativity for Responsive Devices
